

Let us entertain you

No need to look further

Wrapped in exclusive Scandinavian design Jamo has created an easy to use DVD receiver with very exclusive features - just relax and let us entertain you.

The Jamo DMR 70 DVD receiver plays the majority of current file formats and has the necessary enhancements and advanced features.

HDMI - DVD upscaling 720p/1080i

Product features:

- HDMI output - a digital connection that can carry digital HD video as well as digital multichannel audio.
- Personal audio input for e.g. iPod/MP3 players.
- DVD Video Upscaling to 720p, 1080i - increases the resolution of SD (Standard Definition) video signals that DVD uses to HD (High Definition) via the HDMI cable
- DivX Ultra capability - combining DivX playback with great features like integrated subtitles, multiple audio languages, multiple tracks and menus into one convenient file format.
- Plays DivX, DivX Ultra, Xvid/MPEG-4, WMA, MP3, JPEG files from disc or directly from USB
- Build to match the Jamo speakers A 102 & A 400 and the Jamo Subwoofer SUB 200 (200W) and A 400 SUB
- Total sound power 525 W
